THE UNIVERSITY OF NEBRASKA

TWENTY-FIRST ANNUAL HONORS CONVOCATION

UNIVERSITY COLISEUM
TUESDAY, APRIL TWENTY-SIXTH
NINETEEN HUNDRED FORTY-NINE
TEN-FIFTEEN A. M.

By their mind, its scope, quality, and temper, we estimate men, for by the mind only do we exist as men, and are more than so many storage-batteries for material energy. Let us therefore be frankly human. Let us be content to live in the mind.

George Santayana

Extract from the Action of the University Senate Authorizing the Honors Convocation

"Programs prepared for the occasion shall contain:

(1) Names of students recognized for superior scholarship. (This list contains the names of those senior students who during the two preceding semesters have had an average grade of 8 or above and of those who will have been on the Honors List for four years.)

(2) Names of students recognized for high scholarship. (This list contains the names of those freshman students who had during the preceding semester an average grade of 6.5 or above and of those sophomore, junior and senior students who had during the two preceding semesters an average grade of 7 or above, except in those instances where the number exceeds 10 per cent of the class in which instances the upper 10 per cent is on this list.)

(3) Names of student organizations which reach a designated level of scholarship.

(4) Announcements of prizes and awards."

In the compilation of the lists of students to be recognized for superior scholarship or for high scholarship, only those have been considered who are regularly enrolled as candidates for degrees and who have completed at least 24 hours work during the two preceding semesters. All averages for these students have been based on their records for these two semesters. Records of students in law and medicine have not been considered.

The college and departmental organizations have been ordered on the basis of per cent of members named in the honor lists. Those only have been included which have one third or more of their members so named. When the percentages are equal, the order is alphabetical.

In compiling the lists of prizes and awards only those are considered in which scholarship is an important consideration.
